**Product Description:**
Dolo EDTA Gel is 17% EDTA with 10% carbamide peroxide in water soluble gel base for use in chemical and mechanical cleansing of root canal preparation. It lubricates the root canal, chelates the calcium salts to facilitate endodontic instrument penetrations. Due to its effervescent action with sodium hypochlorite solution, cleaning of root canal becomes very easy. The use of sodium hypochlorite with the gel promotes internal bleaching of the tooth. This process is enhanced by the release of oxygen from carbamide peroxide.

**Composition:**
EDTA, Carbamide Peroxide, Glycerine and Polyethylene Glycol.

**Indications:**
For chemical & mechanical preparation of root canals. Cleansing and enlarging of calcified root canals.

**Instructions for Use:**
Apply Dolo EDTA Gel at the canal opening with a pellet or coat the instrument to be used with the gel for lubrication. Fill and ream canal by conventional method, Irrigate with 3% Sodium Hypochlorite solution to remove the debris from the canal. Rinse the canal with water to remove the EDTA Gel. Dry Canal with absorbent paper points before filling.

**Warning:**
Avoid prolonged or repeated contact with skin (allergic contact dermatitis), and eyes. Avoid prolonged inhalation. Do not take internally Contact with the skin may cause irritation, burns of hypersensitivity. If contact with skin occurs immediately wipe off thoroughly with cotton and alcohol and then wash well with soap and water. If skin rash and sensitization or other allergic reaction occurs discontinue use and seek medical attention. If the product comes into contact with the eyes, rinse thoroughly with fresh water and consult a physician. It should not be used with patients who have a history of severe allergic reaction to any of the components.

**Precautions:**
Avoid injecting solution beyond apex of canal.

**Storage Conditions:**
Store in a cool and dry environment between 10°C to 24°C. Always close the cap immediately after use. Close the Container carefully after use. Keep Away from Moisture. Shelf Life not affected after opening if stores in a cool dry place. If not to be used for a longer duration, keep them in refrigerator. Allow material to reach room temperature prior to use.

**Shelf life:**
3 years from the date of manufacturing.

**Presentation:**
Ref: 40002
Trial Pack: 1 x 2g Syringe, 5 x Applicator Tips.
Ref: 40003
Economy Pack: 4 x 2g Syringes, 20 x Applicator Tips.

**Disposal conditions:** To be disposed off based on the prevailing rules of the country in which it is used.
