24 CARAT

Advanced Zero Sensitivity Tooth Whitening System

PREVESTDenPro®
THE FUTURE OF DENTISTRY

Product Description :
24 Carat Pure White Smile is a revolutionary, state-of-the-art Teeth Whitening Gel. Its advanced zero sensitivity formula eliminates sensitivity. The optimized pH gel consists of the active carbamide peroxide suspended in a high tack, high viscosity gel which considerably reduces the treatment time.

Composition :
Carbamide Peroxide, Thickening Agent, Glycerine, Desensitizing Agent and Flavouring Agent

Intended Purpose/Intended Use : It is intended to be used as teeth whitening gel.

Indications for Use : Whitening of discoloured vital and non vital teeth.

Instructions for Use :
Remove cap from the syringe and fix dispensing tip. Squeeze whitening gel into the tray in small drops at each tooth site. Do not overfill the tray. Brush and floss teeth thoroughly and seat the tray firmly into teeth. Wipe over flowing excess gel off the gums with a cotton swab or tissue by holding the tray with one hand. Rinse with cold water. Do not swallow rinses. Wear tray for 30 minutes. You may wear for longer period for further results. Remove tray and brush teeth to remove gel. Clean tray with soft brush or with cotton swab and rinse with cold water. Wipe the tray with dry tissue and store in zipper pouch/plastic box. Repeat the process for both upper and lower teeth once a day until teeth have reached desired shade of whiteness. Maximum of twelve applications recommended. The dispensed material shall not be placed back in the container and the dose once applied or used shall not be reused.

Warnings :
For professional use only .
Avoid prolonged or repeated contact with skin (allergic contact dermatitis), and eyes. Avoid prolonged inhalation. Do not take internally. Contact with the skin may cause irritation, burns of hypersensitivity. If contact with skin occurs immediately wipe off thoroughly with cotton soaked in alcohol and then wash well with soap and water. If skin rash and sensitization or other allergic reaction occurs discontinue the use and seek medical attention. If the product comes into contact with the eyes, rinse thoroughly with fresh water and consult a physician. It should not be used with patients who have a history of severe allergic reaction to any of the components.

Precautions :
Only natural teeth can be bleached. Pregnant and lactating women are advised to avoid whitening treatment. Check patient's history for allergies to carbamide peroxide/hydrogen peroxide and other ingredients. If you experience any problem, consult your dentist.

Contraindications :
Do not use in patients who are known to be allergic to any of the ingredients. Do not used in patients with periodontal disease. The use of product is contraindicated in pregnant or lactating women.

Storage Conditions :
Store at temperature between 10°C(50°F) to 24°C(75°F). Close the cap carefully after use. Keep away from moisture. Shelf life not affected after opening if stored in a cool and dry place.

Shelf Life :
3 years from the date of manufacturing .
