

ORAFIL PLUS

TEMPORARY FILLING MATERIAL WITH
SODIUM FLUORIDE

PREVESTDenPro®
THE FUTURE OF DENTISTRY

Product Description : Orafil Plus is a radiopaque, temporary filling material for temporary filling of dental cavities. Addition of sodium fluoride helps reduce dentine hyper-sensitivity and post operative pain due to preparations for direct and indirect restorations.

Composition : Zinc oxide, Calcium Sulphate, Zinc Sulphate, Dibutyl Phthalate, EVA Resin, Spearmint oil and Sodium Fluoride.

Indications : Recommended for temporary restoration of cavities in the interval between tooth preparation and the permanent cementation of completed inlays and as a cementing medium for all types of temporary crowns.

Instructions for Use : Use any suitable instrument to introduce the paste directly into wet cavity. Press and spread with the instrument to fill the cavity and adapt to the cavity walls. Remove any excess paste by wiping it off with a moist cotton pellet towards the margins of the cavity. Hardened paste can be removed with the use of rotary instrument or any suitable hand instrument. It is advised not to fill very deep cavities up to the base of cavity.

Warning : Avoid prolonged or repeated contact with skin (allergic contact dermatitis), and eyes. Avoid prolonged inhalation. Do not take internally contact with the skin may cause irritation, burns of hypersensitivity. If contact with skin occurs immediately wipe off thoroughly with cotton and alcohol and then wash well with soap and water. If skin rash and sensitization or other allergic reaction occurs discontinue use and seek medical attention. If the product comes into contact with the eyes, rinse thoroughly with fresh water and consult a physician.

Contraindications :

It should not be used with patients who have a history of severe allergic reaction to any of the components.

Incompatibility :

In sensitive persons, the product may cause sensitization. If allergic reaction occurs remove the filling immediately and consult physician.

Storage Conditions :

Store at temperature between 10°C to 24°C. Close the cap carefully after use. Keep away from moisture. Shelf life not affected after opening if stored in a cool dry place.

Shelf Life : 3 years from the date of manufacturing.

Packaging :

Ref : 11002

Presentation : 1 x 40g Jar.

Disposal conditions : To be disposed off based on the prevailing rules of the country in which it is used.
