

PULP-X

PULP DEVITALIZER

Product Description :

Pulp-X is a devitalizer which provides powerful pulp devitalizing properties due to paraformaldehyde.

Composition :

Formaldehyde, Parachlorophenol, Fillers, Thickening Agents and Pigments.

Intended Purpose / Intended use : It is intended to be used as pulp devitalizer.

Indications for Use :

Pulp Devitalizer prior to mortal extirpation or amputation. Residual devitalization after removal of non-vital pulp tissue.

Instructions for Use :

Eliminate as far as possible, the dentine of the decayed cavity in order to ensure close contact with the pulp. Close contact of Pulp-X with the pulp accelerates the devitalizing process. Insert a pellet soaked with Pulp-X into the base of the cavity and seal hermetically with a temporary cement. Devitalization is completed within five to seven days. After devitalization, a permanent root canal filling can be placed once the pulp is totally removed and pain relief is complete.

The dispensed material shall not be placed back in container and the dose once applied and used shall not be reused.

Warnings :

Contains formaldehyde which can be toxic by inhalation or ingestion. Contact with the skin may cause irritation, burns or hypersensitivity. If contact with skin occurs immediately wipe off thoroughly with cotton and alcohol and then wash well with soap and water. If skin rash and sensitization or other allergic reaction occurs discontinue the use and seek medical attention. If the product comes into contact with the eyes, rinse thoroughly with fresh water and consult a physician. It should not be used with patients who have a history of severe allergic reaction to any of the components.

Precautions :

1. The cavity must be carefully sealed with the cement to prevent any leaching of the product which can cause local destruction of the periodontium.
2. The cap should always be replaced immediately after use.

Contraindication : Do not use in patients if allergic to formaldehyde or any other ingredients.

Storage Conditions :

Store at temperature between 10°C(50°F) to 24°C(75°F). Close the cap carefully after use. Keep away from moisture. Shelf life not affected after opening if stored in a cool dry place.

Shelf Life : 3 years from the date of manufacturing.

Presentation :

Ref: 40021

1 x 6g, Jar

Disposal conditions :

To be disposed off based on the prevailing rules of the country in which it is used.
