

REVEAL

CARIES INDICATOR

Product Description : Reveal is a green FD&C dye in a propylene glycol base. Reveal assists the clinician in visual differentiation between the (infected) carious dentine and sound and re-mineralizable dentine by its ability to selectively dye the carious dentine.

Composition : Green FD&C dye, Propylene Glycol.

Intended Purpose / Intended Use : It is used to detect carious dentine in an infected tooth.

Indications for Use : Caries indication by visual differentiation between (infected) carious & sound, remineralizable dentine.

Instructions for Use : Make conservative cavity access. Wash and dry carious dentine. Dispense 1 or 2 drops of Reveal in to a dappen dish and apply to the cavity with a brush or cotton pellet. wait for 5 to 10 seconds and rinse with water spray. Remove green stained infected dentine. Repeat the application until carious dentine is removed and no further dentine staining occurs. The dispensed material shall not be placed back in container and the dose once applied and used shall not be reused.

Warnings : Avoid prolonged or repeated contact with skin (allergic contact dermatitis), and eyes. Avoid prolonged inhalation. Do not take internally. Contact with the skin may cause irritation, burns of hypersensitivity. If contact with skin occurs immediately wipe off through with cotton and alcohol and then wash well with soap and water. If skin rash and sensitization or other allergic reaction occurs discontinue the use and seek medical attention. If the product comes into contact with the eyes, rinse thoroughly with fresh water and consult a physician. It should not be used with patients who have a history of severe allergic reaction to any of the components.

Precautions : A low speed rotary instrument should be used for removing the carious dentine since frictional heat generated by the high speed tool can cause pain before all the stained outer carious dentine is removed.

Contraindications : Reveal does not contain any hazardous ingredients in sufficient concentration to be harmful to human beings and causing irritation to oral tissues when not used as directed.

Storage Conditions : Store at temperature between 10°C(50°F) to 24°C(75°F). Close the cap carefully after use. Keep away from moisture. Shelf life not affected after opening if stored in a cool dry place.

Shelf Life : 3 years from the date of manufacturing

Presentation :

Ref : 80002

1 x 5ml plastic dropper bottle.

Disposal conditions : To be disposed off based on the prevailing rules of the country in which it is used.
