

Enzymatic Concentrate For Cleaning & Disinfection

Product Description : Virozym is a high efficiency concentrated liquid formula for manual and ultrasonic cleaning and disinfection of medical devices such as dental and medical instruments.

Composition :

N-(3-aminopropyl)-N-dodecylpropano-1, 3-Diamine , Poly(oxy-1,2-ethanediyl),alpha-[2-(didecylmethylammonio)ethyl]- omega-hydroxy-,propanoate , Didecylidimethylammonium chloride, Isotridecanol, ethoxylated, 2-(2- Butoxyethanol), Subtilisin, thickening agents, emulsifiers and flavoring agents.

Intended Purpose/Intended Use: It is intended to be used as a liquid formula for cleaning, decontaminating and disinfecting medical device and dental instruments.

Indications for use:

- ◆ It is used for manual cleaning and disinfection of dental and medical devices such as rotary and surgical instruments respectively.
- ◆ It can also be used in ultrasonic cleaners for high level enzymatic cleaning and disinfection of dental and medical instruments.

Instructions for Use : The concentrate is to be diluted with potable water to 1% concentration. Immerse instruments immediately after use in the solution and soak for 15 minutes. Rinse the instruments with water and dry after disinfection. Discard the used solution daily and prepare fresh solution daily. Do not mix with other cleaning agents or disinfectants

Warnings : Harmful if swallowed. Causes severe skin burns and eye damage. May cause damage to organs through prolonged or repeated exposure.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF ON SKIN(or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and continue rinsing. Get medical advice/attention if you feel unwell

Precautions :

- ◆ Wear personal protective equipment such as gloves, masks, goggles for protection. Wash your hands after handling.
- ◆ It is recommended to replace the solution, especially in the presence of high levels of organic contamination (blood , saliva)

Contraindications : Avoid heat

Storage Conditions : Store at temperature between 10°C (50°F) to 24°C (75°F). Keep away from moisture and heat. Close the cap carefully after use. The shelf life of the product is valid only if left unopened and correctly stored in a cool dry place.

Shelf life : 3 years from the date of manufacturing.

Presentation :

Ref: 16005

1 Litre Dosing Bottle

Ref: 16006

5 Litre Can

Disposal Conditions : To be disposed off based on the prevailing rules of the country in which it is used.
